

COUNTRY AGENTS AND DISTRIBUTORS

We are expanding our business further into new territories and markets and are looking to recruit new sales agents in the following:

USA – East Central areas, Countrywide (Land and Marine projects)
Russia (Land and Marine projects)
Japan (Land and Marine projects)
Norway/Sweden (Land and Marine projects)
South America (excluding Mexico) (Land based projects)
Canada (Land based projects)
Italy (Land based projects)

These agents will complement our existing worldwide agents and manufacturing locations and will work closely with our technical sales and engineering teams. Some territories have an established base of previous projects and existing relationships that our new agents can be introduced to.

We are seeking long term partnerships with businesses and individuals that have solid knowledge of the Power, Industrial, Waste to Energy, Petrochem and/or Marine markets. They will need to have a proven record in selling our range of products from designed, engineered and manufactured waster heat boiler and economiser to aftermarket services and spare parts.

Full training and good commission rates available. Please apply to
