

GREEN'S

Part of the Heat Exchange Group

Quality Management System Scope of Approval & Quality Policy Statement

Scope of Approval:

Engineering, design, manufacture, installation, servicing and repair of Boilers, Economisers, Heat Recovery Steam Generators, Exhaust Gas Heat Exchangers and Air-heaters for land and marine applications.

Quality Policy Statement:

The company aims to continually develop its business and provide market leading heat transfer products and services, ultimately developing solutions for customers to provide energy saving solutions/increased thermal efficiency thus reducing the quantity of harmful emissions emitted.

In accordance with these aims the company has established a management system that conforms to the international quality management standard ISO 9001:2015.

We are committed to both maintaining and improving the management system processes through periodic reviews and by monitoring its effectiveness through the use of measurable objectives.

For and on behalf of the Directors of Greens Power Ltd
