

# HEAT EXCHANGE GROUP

## Environmental & Sustainability Policy Statement

The Heat Exchange Group (Greens Power Ltd; Thornhill Engineering Services Ltd; & Thornhill Rubber Ltd.) is totally committed to complying with **BS EN ISO 14001: 2015 Environmental Management Systems – Requirements**, (and all associated legislation, codes of practice and other requirements) and will at all times ensure that its own systems comply with all the requirements of that standard.

It will also ensure that it adheres to its own Environmental Management Systems, Process Controls, and Procedures and strive to improve them continuously and to apply Good Professional Practice throughout its organisation and fulfilling a high standard of performance and the expectations of its customers. This policy provides the framework for setting and reviewing environmental objectives and targets.

All staff must familiarise themselves and regularly update themselves on the Company's standards of environmental management and are required to take a positive attitude to minimising the company's impact on the environment.

The company is committed to continually improving the effectiveness of the environmental management systems, and to prevent pollution within the company working environment, and to the wider external environment.

The company wherever possible will review its suppliers to ensure the sustainability of raw materials.

The environment policy will be made available to all parties interested in the performance of the company environmental management system, including the public

The Heat Exchange Group will carry out periodic reviews of this policy and make necessary improvements to the company's policies and procedures following these reviews.
